

Attention all Concrete Sawing & Drilling workers

• **CFMEU WINS ON ALLOWANCE • BACKPAY COMING**

It's going to be a happy new year for CFMEU members working in the concrete cutting and drilling industry after a great win.

Late in 2011, the Union was approached by members whose sawing and drilling allowance had not been increased from \$6.06 per hour since the last EBA began in 2009.

The EBA clearly stated that the allowance should have been increased, in line with site and travel allowances. The matter went to the Industry Disputes Panel, which agreed with the Union that the correct hourly rate is now \$6.60 and should have stepped up over the last agreement:

Date	Concrete Sawing & Drilling allowance
October 2009	\$6.11/hr
March 2010	\$6.30/hr
October 2010	\$6.35/hr
March 2011	\$6.55/hr
October 2011	\$6.60/hr

If you're not getting the correct allowance, contact CFMEU organiser Mick Powell on 0419 332 318.
